Subject Index

AIDS, HBLV, PCR, Human lymphoma, 191

Acute infection, Herpesvirus infection, Epstein-Barr virus, Persistent active infection, Serology, Virus isolation, 291

Acyclovir, Human herpesvirus-6, Antiviral drug, Phosphonoformic acid, Gancyclovir, 301

Acyclovir, Herpesvirus infection, Chronic infection, Herpes simplex virus, Varicella-zoster virus, Epstein-Barr virus, 305

Anti-EBNA-1 protein, EBNA-1, Immunoprecipitation, DNA binding column, 161

Antibody prevalence, Human herpesvirus-6, Epidemiology, 117

Antibody prevalence, Human herpesvirus-6, Immune deficiency, Lymphoproliferative disease, 125

Antibody, HBLV, HHV-6, ELISA, 199

Antiviral drug, Human herpesvirus-6, Phosphonoformic acid, Acyclovir, Gancyclovir, 301

Atypical polyclonal lymphoproliferation, Herpesvirus infection, Malignant lymphoma, 255

Autoimmune disease, Herpesvirus infection, Epstein-Barr virus, Human herpesvirus-6, Lymphoproliferative disease, Immune deficiency, 11

Autoimmunity, Epstein-Barr virus, 19

B-cell, Malignant lymphoma, Monoclonal antibody, T-cell, Immunohistochemistry, Immunocytochemistry, 265

Biology, HBLV/HHV-6, Immunology, Molecular hybridization, 29

Chromosomal translocation, Lymphoid neoplasia, Oncogene, Prognosis, 275

Chronic fatigue syndrome, Chronic viral infection, Epstein-Barr virus, Human herpesvirus-6, 3

Chronic infection, Herpes simplex virus, Varicella-zoster virus, Recurrent infection, Clinical pathology, Serological test, 61

Chronic infection, Herpesvirus infection, herpes simplex virus, Varicella-zoster virus, Cytomegalovirus, Epstein-Barr virus, Acyclovir, 305

Chronic viral infection, Chronic fatigue syndrome, Epstein-Barr virus, Human herpesvirus-6, 3

Clinical application, ELISA, Polypeptide, Monoclonal antibody, Immunoglobulin, 97

Clinical pathology, Herpes simplex virus, Varicella-zoster virus, Chronic infection, Recurrent infection, Serological test, 61

Cytomegalovirus, Rapid diagnosis, Immunofluorescence, Enzyme immunoassay, 79

Cytomegalovirus, Immunoglobulin M, Shell vial assay, 87

Cytomegalovirus, Herpesvirus infection, Chronic infection, Herpes simplex virus, Varicella-zoster virus, Epstein-Barr virus, Acyclovir, 305

DNA binding column, EBNA-1, Anti-EBNA-1 protein, Immunoprecipitation, 161

Diagnosis, Epstein-Barr virus, IgM detection, Infectious mononucleosis, Enzyme immunoassay, 105

Diagnosis, Epstein-Barr virus infection, Molecular serology, Immunoblot, 133

Dialysable lymphocyte extract (DLE), SIV, SAIDS, Macaque, Immunomodulator, 241

EBNA-1, Anti-EBNA-1 protein, Immunoprecipitation, DNA binding column, 161

EBV promoter, EBV, HIV, HTLV-1, Viral interaction, Transactivation, 229

EBV, HIV, HTLV-1, Viral interaction, Transactivation, EBV promoter, 229

ELISA, HBLV, HHV-6, Antibody, 199

ELISA, Polypeptide, Monoclonal antibody, Clinical application, Immunoglobulin, 97

Enzyme immunoassay, Cytomegalovirus, Rapid diagnosis, Immunofluorescence, 79

Enzyme immunoassay, Epstein-Barr virus, Diagnosis, IgM detection, Infectious mononucleosis, 105

Epidemiology, Human herpesvirus-6, Antibody prevalence, 117

Epitope mapping, Epstein-Barr virus, Synthetic peptide, 147

Epstein-Barr virus, Chronic fatigue syndrome, Chronic viral infection, Human herpesvirus-6, 3

Epstein-Barr virus, Herpesvirus infection, Human herpesvirus-6, Autoimmune disease, Lymphoproliferative disease, Immune deficiency, 11

Epstein-Barr virus, Autoimmunity, 19
Epstein-Barr virus, Diagnosis, IgM detection, Infectious mononucleosis, Enzyme immunoassay, 105
Epstein-Barr virus, Epitope mapping, Synthetic peptide, 147
Epstein-Barr virus, Herpesvirus infection, Acute infection, Persistent active infection, Serology, Virus isolation, 291
Epstein-Barr virus, Herpesvirus infection, Chronic infection, Herpes simplex virus, Varicella-zoster virus, Cytomegalovirus, Acyclovir, 305
Epstein-Barr virus infection, Molecular serology, Diagnosis, Immunoblot, 133
Gancyclovir, Human herpesvirus-6, Antiviral drug, Phosphonoformic acid, Acyclovir, 301
HBLV, HHV-6, Human herpesvirus, Nucleic acid, Protein, 179
HBLV, HHV-6, Antibody, ELISA, 199
HBLV, PCR, AIDS, Human lymphoma, 191
HBLV/HHV-6, Biology, Immunology, Molecular hybridization, 29
HHV-6, HBLV, Human herpesvirus, Nucleic acid, Protein, 179
HHV-6, HBLV, Antibody, ELISA, 199
HIV, EBV, HTLV-1, Viral interaction, Transactivation, EBV promoter, 229
HTLV-1, EBV, HIV, Viral interaction, Transactivation, EBV promoter, 229
Herpes simplex virus, Varicella-zoster virus, Chronic infection, Recurrent infection, Clinical pathology, Serological test, 61
Herpesvirus, Human cell culture, In vitro carcinogenesis, Oncogenic virus, 209
Herpesvirus infection, Epstein-Barr virus, Human herpesvirus-6, Autoimmune disease, Lymphoproliferative disease, Immune deficiency, 11
Herpesvirus infection, Histopathology, 73
Herpesvirus infection, Atypical polyclonal lymphoproliferation, Malignant lymphoma, 255
Herpesvirus infection, Epstein-Barr virus, Acute infection, Persistent active infection, Serology, Virus isolation, 291
Herpesvirus infection, Chronic infection, Herpes simplex virus, Varicella-zoster virus, Epstein-Barr virus, Acyclovir, 305
Histopathology, Herpesvirus infection, 73
Human cell culture, In vitro carcinogenesis, Herpesvirus, Oncogenic virus, 209
Human herpesvirus, HBLV, HHV-6, Nucleic acid, Protein, 179
Human herpesvirus-6, Chronic fatigue syndrome, Chronic viral infection, Epstein-Barr virus, 3
Human herpesvirus-6, Herpesvirus infection, Epstein-Barr virus, Autoimmune disease, Lymphoproliferative disease, Immune deficiency, 11
Human herpesvirus-6, Malignant lymphoma, Sarcoidosis, Sjögren's syndrome, 49
Human herpesvirus-6, Epidemiology, Antibody prevalence, 117
Human herpesvirus-6, Antibody prevalence, Immune deficiency, Lymphoproliferative disease, 125
Human herpesvirus-6, Antiviral drug, Phosphonoformic acid, Acyclovir, Gancyclovir, 301
Human lymphoma, HBLV, PCR, AIDS, 191
IgM detection, Epstein-Barr virus, Diagnosis, Infectious mononucleosis, Enzyme immunoassay, 105
Immune deficiency, Herpesvirus infection, Epstein-Barr virus, Human herpesvirus-6, Autoimmune disease, Lymphoproliferative disease, 11
Immune deficiency, Human herpesvirus-6, Antibody prevalence, Lymphoproliferative disease, 125
Immunoblot, Epstein-Barr virus infection, Molecular serology, Diagnosis, 133
Immnocytochemistry, Malignant lymphoma, Monoclonal antibody, T-cell, B-cell, Immunohistochemistry, 265
Immunofluorescence, Cytomegalovirus, Rapid diagnosis, Enzyme immunoassay, 79
Immunoglobulin, ELISA, Polypeptide, Monoclonal antibody, Clinical application, 97
Immunoglobulin M, Cytomegalovirus, Shell vial assay, 87
Immunohistochemistry, Malignant lymphoma, Monoclonal antibody, T-cell, B-cell, Immnocytochemistry, 265
Immunology, HBLV/HHV-6, Biology, Molecular hybridization, 29
Immunomodulator, SIV, SAIDS, Macaque, Dialysable lymphocyte extract (DLE), 241
Immunoprecipitation, EBNA-1, Anti-EBNA-1 protein, DNA binding column, 161
In situ hybridization, RNA probe, ^{35}S-labeled, Oligonucleotide, 171

In vitro carcinogenesis, Human cell culture, Herpesvirus, Oncogenic virus, 209
Induction, Monoclonal antibody, Latency, Polypeptide, *n*-Butyrate, TPA, 223
Infectious mononucleosis, Epstein-Barr virus, Diagnosis, IgM detection, Enzyme immunoassay, 105
Latency, Induction, Monoclonal antibody, Polypeptide, *n*-Butyrate, TPA, 223
Lymphoid neoplasia, Chromosomal translocation, Oncogene, Prognosis, 275
Lymphoproliferative disease, Herpesvirus infection, Epstein-Barr virus, Human herpesvirus-6, Autoimmune disease, Immune deficiency, 11
Lymphoproliferative disease, Human herpesvirus-6, Antibody prevalence, Immune deficiency, 125
Macaque, SIV, SAIDS, Immunomodulator, Dialysable lymphocyte extract (DLE), 241
Malignant lymphoma, Human herpesvirus-6, Sarcoidosis, Sjögren's syndrome, 49
Malignant lymphoma, Herpesvirus infection, Atypical polyclonal lymphoproliferation, 255
Malignant lymphoma, Monoclonal antibody, T-cell, B-cell, Immunohistochemistry, Immunocytochemistry, 265
Molecular hybridization, HBLV/HHV-6, Biology, Immunology, 29
Molecular serology, Epstein-Barr virus infection, Diagnosis, Immunoblot, 133
Monoclonal antibody, ELISA, Polypeptide, Clinical application, Immunoglobulin, 97
Monoclonal antibody, Induction, Latency, Polypeptide, *n*-Butyrate, TPA, 223
Monoclonal antibody, Malignant lymphoma, T-cell, B-cell, Immunohystochemistry, Immunocytochemistry, 265
***n*-Butyrate**, Induction, Monoclonal antibody, Latency, Polypeptide, TPA, 223
Nucleid acid, HBLV, HHV-6, Human herpesvirus, Protein, 179
Oligonucleotide, In situ hybridization, RNA probe, ^{35}S-labeled, 171
Oncogene, Lymphoid neoplasia, Chromosomal translocation, Prognosis, 275
Oncogenic virus, Human cell clture, In vitro carcinogenesis, Herpesvirus, 209
PCR, HBLV, AIDS, Human lymphoma, 191
Persistent active infection, Herpesvirus infection, Epstein-Barr virus, Acute infection, Serology, Virus isolation, 291
Phosphonoformic acid, Human herpesvirus-6, Antiviral drug, Acyclovir, Gancyclovir, 301
Polypeptide, ELISA, Monoclonal antibody, Clinical application, Immunoglobulin, 97
Polypeptide, Induction, Monoclonal antibody, Latency, *n*-Butyrate, TPA, 223
Prognosis, Lymphoid neoplasia, Chromosomal translocation, Oncogene, 275
Protein, HBLV, HHV-6, Human herpesvirus, Nucleic acid, 179
RNA probe, In situ hybridization, ^{35}S-labeled, Oligonucleotide, 171
Rapid diagnosis, Cytomegalovirus, Immunofluorescence, Enzyme immunoassay, 79
Recurrent infection, Herpes simplex virus, Varicella-zoster virus, Chronic infection, Clinical pathology, Serological test, 61
^{35}S-labeled, In situ hybridization, RNA probe, Oligonucleotide, 171
SAIDS, SIV, Macaque, Immunomodulator, Dialysable lymphocyte extract (DLE), 241
SIV, SAIDS, Macaque, Immunomodulator, Dialysable lymphocyte extract (DLE), 241
Sarcoidosis, Human herpesvirus-6, Malignant lymphoma, Sjögren's syndrome, 49
Serological test, herpes simplex virus, Varicella-zoster virus, Chronic infection, Recurrent infection, Clinical pathology, 61
Serology, Herpesvirus infection, Epstein-Barr virus, Acute infection, Persistent active infection, Virus isolation, 291
Shell vial assay, Immunoglobulin M, Cytomegalovirus, 87
Sjögren's syndrome, Rheumatoid arthritis
Sjögren's syndrome, Human herpesvirus-6, Malignant lymphoma, Sarcoidosis, 49
Synthetic peptide, Epstein-Barr virus, Epitope mapping, 147
T-cell, Malignant lymphoma, Monoclonal antibody, B-cell, Immunohistochemistry, Immunocytochemistry, 265
TPA, Induction, Monoclonal antibody, Latency, Polypeptide, N-butyrate, 223
Transactivation, EBV, HIV, HTLV-1, Viral interaction, EBV promoter, 229
Varicella-zoster virus, Herpes simplex virus, Chronic infection, Recurrent infection, Clinical pathology, Serological test, 61
Varicella-zoster virus, Herpesvirus infection,

Chronic infection, Herpes simplex virus, Cytomegalovirus, Epstein-Barr virus, Acyclovir, 305
Viral interaction, EBV, HIV, HTLV-1, Transactivation, EBV promoter, 229
Virus isolation, Herpesvirus infection, Epstein-Barr virus, Acute infection, Persistent active infection, Serology, 291
